

**GUARANTEED &
WARRENTED**

The Medlin's 40 Year Limited Warranty

As wise consumers, we learn to investigate the warranties on items that we buy. We look at the length of the warranty, what it covers, and what it doesn't cover. Yet, despite all of these warranties, we have largely become a disposable society. When the television breaks, it is easier to replace with a new one than fix the old – we do that with so many things! But NOT your new metal roof!!!

OUR PRODUCTS AND TECHNOLOGY ARE PROVEN

Medlin's Metal Roofing offers a limited 40 year warranty. Our warranty guarantees your roof will not chip, peel, flake, blister, burn, rust, split, or crack with age. Additionally, our paint systems carry a non-pro-rated 40-Year Limited Warranty ensuring your roof's finish will resist fade and chalk. If your roof does experience a warranted failure, we will cover the cost of materials to repair or replace your roof.

We provide a warranty of this level and coverage because our products and technology are proven. In over 30 years of roofing thousands of homes and buildings across the Southeast, we have had fewer than ten warranted claims. We are proud of that track record and are committed to set new standards of excellence for years to come.
